My name is Bedirhan. I am a 2021 high school graduate. I don't like to code, but I do it because I have to. In the future, I want to be on the side of the trade rather than being a software developer.

I read and understood fully contents of the course website. I won't share my works. I will responsible on what has been asked on piazza. I wont write my questions other than english. I understood terms of piazza and its in my responsibility
